

TQB Brands Pty Ltd

# SAFETY DATA SHEET

Product: 5082T/5083T Parts Washer Concentrate

## SECTION 1 – STATEMENT OF CHEMICAL PRODUCT AND COMPANY IDENTIFICATION

|                               |   |                      |                |
|-------------------------------|---|----------------------|----------------|
| <b>SUPPLIER</b>               | TQB Brand Pty Ltd                                   |                      |                |
| <b>ADDRESS</b>                | Unit 1/40 Metrolink Circuit, Campbellfield VIC 3061 |                      |                |
| <b>TRADE NAME</b>             | 5082T/5083T Parts Washer Concentrate                |                      |                |
| <b>TELEPHONE</b>              | (03) 9357 8440                                      | <b>FAX</b>           | (03) 9357 8447 |
| <b>AH EMERGENCY TELEPHONE</b> | 13 11 26 (Australia)                                | <b>ABN</b>           | 20 932 104 369 |
| <b>SUBSTANCE</b>              | Water based liquid                                  | <b>PRODUCT USE</b>   | Degreaser      |
| <b>CREATION DATE</b>          | November 2022                                       | <b>REVISION DATE</b> | November 2027  |
| <b>PRODUCT CODE</b>           | 5082T / 5083T                                       |                      |                |

## SECTION 2 – HAZARDS IDENTIFICATION

### Classification of the substance or mixture

|                           |  |
|---------------------------|--|
| <b>Poisons Schedule</b>   | S5 (ALKALINE SALTS)  |
| <b>Dangerous Goods</b>    | Not classified as Dangerous Goods according to the Australian Code for the Transport of Dangerous Goods by Road and Rail.  |
| <b>GHS Classification</b> | Classified as Hazardous according to the Globally Harmonised System of Classification and labelling of Chemicals (GHS) including Work, Health and Safety regulations, Australia. <ul style="list-style-type: none"> <li>• <b>Eye Irritation Category 2</b></li> <li>• <b>Skin Irritation Category 2</b></li> <li>• <b>Acute Aquatic Toxicity - Category 3</b></li> </ul> |

### Label Elements

|                             |   |
|-----------------------------|---|
| <b>GHS label pictograms</b> |  GHS07 |
|-----------------------------|---|

**Signal Word** WARNING

### Hazard statement(s)

|             |                                |
|-------------|--------------------------------|
| <b>H319</b> | Causes serious eye irritation. |
| <b>H315</b> | Causes skin irritation.        |
| <b>H402</b> | Harmful to aquatic life.       |

### Precautionary statement(s): General

|             |   |
|-------------|---|
| <b>P101</b> | If medical advice is needed, have product container or label at hand. |
| <b>P102</b> | Keep out of reach of children.  |
| <b>P103</b> | Read label before use.  |

### Precautionary statement(s): Prevention

|             |   |
|-------------|---|
| <b>P264</b> | Wash hands and skin thoroughly after handling.          |
| <b>P280</b> | Wear eye protection/ face protection/protective gloves. |
| <b>P273</b> | Avoid release to the environment.                       |

### Precautionary Statement(s): Response

|                           |  |
|---------------------------|--|
| <b>P305 + P351 + P338</b> | IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. |
| <b>P337 + P313</b>        | If eye irritation persists: Get medical advice/attention.  |
| <b>P302+P352</b>          | IF ON SKIN: Wash with plenty of water.   |
| <b>P321</b>               | Specific treatment (see First Aid Measures on this label).   |

# SAFETY DATA SHEET

Product: 5082T/5083T Parts Washer Concentrate

|   |  |
|---|--|
| <b>P332+P313</b>                            | If skin irritation occurs: Get medical advice/attention.   |
| <b>P362 +P364</b>                           | Take off contaminated clothing and wash it before reuse.   |
| <b>P362</b>                                 | Take off contaminated clothing and wash before reuse.  |
| <b>Precautionary statement(s): Storage</b>  |  |
|   |  |
| <b>Precautionary statement(s): Disposal</b> |  |
|   |  |
| <b>Note</b>                                 |  |
| <b>IMPORTANT</b>                            | This SDS and the Hazard Classifications contained therein, only apply to the product in its concentrated form, as supplied. When diluted to 1:10 or greater they no longer apply. However, good hygiene and housekeeping practices should be adhered to. |

## SECTION 3 – COMPOSITION AND INFORMATION ON INGREDIENTS

| Ingredients:  | CAS Number: | Proportion:     |
|---|-------------|-----------------|
| Triethanolamine sulfonate   | 27323-41-7  | < 10% w/w       |
| Ethylene glycol monobutyl ether   | 111-76-2    | < 10% w/w       |
| Potassium hydroxide   | 1310-58-3   | < 0.5% w/w      |
| C12-C15 alcohol ethoxylate  | 68131-39-5  | < 2% w/w        |
| <b>Ingredients determined to be non-hazardous at concentrations present, including water.</b> | various     | Balance to 100% |

NOTE: Ingredients determined not to be hazardous are present in concentrations that do not exceed the relevant cut-off concentrations as found from NOHSC publication “List of Designated Hazardous Substances” or have been found NOT to meet the criteria of a hazardous substance as defined in the NOHSC publication “Approved Criteria for Classifying Hazardous Substances”, or have been found NOT to meet the criteria of a dangerous substance as defined in the GLOBALLY HARMONIZED SYSTEM OF CLASSIFICATION AND LABELLING OF CHEMICALS (GHS7). Listed ingredients may be below the cut-off concentrations for classification as hazardous, but are listed for information purposes and for additive effects.

## SECTION 4 – FIRST AID MEASURES

|                          |  |
|--------------------------|--|
| <b>Inhalation</b>        | Remove victim to fresh air away from exposure. Obtain medical attention if symptoms occur.   |
| <b>Skin contact</b>      | Immediately wash contaminated skin with plenty of soap and water. Remove contaminated clothing and wash before re-use. Seek medical advice (e.g. doctor) if irritation, burning or redness persists.   |
| <b>Eye contact</b>       | If in eyes, hold eyelids apart and flush the eyes continuously with running water. Remove contact lenses. Continue flushing until advised to stop by the Poisons Information Centre or a doctor, or for at least 15 minutes. If eye irritation persists: Get medical advice/attention. |
| <b>Ingestion</b>         | Do NOT induce vomiting. Do NOT attempt to give anything by mouth to an unconscious person. Rinse mouth thoroughly with water immediately. Give water to drink. If vomiting occurs, give further water to achieve effective dilution. Seek immediate medical advice (e.g. doctor).      |
| <b>Advice to Doctor</b>  | Treat symptomatically.   |
| <b>Scheduled Poisons</b> | Poisons Information Centre in each Australian State capital city or in Christchurch, New Zealand can provide additional assistance for scheduled poisons. (Phone Australia 131126 or New Zealand 0800 764 766).  |

TQB Brands Pty Ltd

# SAFETY DATA SHEET

Product: 5082T/5083T Parts Washer Concentrate

|                             |   |
|-----------------------------|---|
| <b>First Aid Facilities</b> | Eyewash and normal washroom facilities. |
|-----------------------------|---|

## SECTION 5 – FIRE FIGHTING MEASURES

|                                   |   |
|-----------------------------------|---|
| <b>Fire and Explosion Hazards</b> | Non flammable liquid. However, on evaporation of the aqueous component, the residual material may burn.   |
| <b>Extinguishing Media</b>        | Use an extinguishing media suitable for surrounding fires. Use carbon dioxide (CO <sub>2</sub> ) fire extinguisher, water fog, foam or fine water spray.                                |
| <b>Fire Fighting</b>              | Keep containers exposed to extreme heat cool with water spray. Fire fighters to wear self-contained breathing apparatus if risk of exposure to products of combustion or decomposition. |
| <b>Flash Point</b>                | None.   |

## SECTION 6 – ACCIDENTAL RELEASE MEASURES

|                             |  |
|-----------------------------|--|
| <b>Emergency Procedures</b> | Minor spills do not normally need any special clean-up measures. Rinse with water. In the event of a major spill, prevent spillage from entering drains or water-courses. Wear appropriate protective equipment as in section 8 below to prevent skin and eye contamination. Spilt material may result in a slip hazard and should be absorbed into dry, inert material (e.g. sand, earth or vermiculite), which then can be put into appropriately labelled drums for disposal by an approved agent according to local conditions. Residual deposits will remain slippery. Wash area down with excess water. If required, neutralize with acid (citric/acetic). If contamination of sewers or waterways has occurred advise the local emergency services. In the event of a large Spillage notify the local environment protection authority or emergency services. |
|-----------------------------|--|

## SECTION 7 – HANDLING AND STORAGE

|                 |   |
|-----------------|---|
| <b>Handling</b> | Avoid skin or eye contact with concentrate. Wear protective clothing when risk of exposure occurs. Avoid contact with incompatible materials. When handling, DO NOT eat, drink or smoke. Keep containers closed at all times. Avoid physical damage to containers. Always wash hands with soap and water after handling. Work clothes should be laundered. Launder contaminated clothing before re-use. |
| <b>Storage</b>  | Store in a cool dry well-ventilated area. Store away from oxidising agents and acids. Keep containers closed when not in use, securely sealed and protected against physical damage. Inspect regularly for deficiencies such as damage or leaks. Store in original packages as approved by manufacturer.  |

## SECTION 8 – EXPOSURE CONTROLS AND PERSONAL PROTECTION

|                        |  |
|------------------------|--|
| <b>Exposure Limits</b> | National Occupational Exposure Limits, as published by National Occupational Health & Safety Commission:<br><b>Time-weighted Average (TWA):</b><br>None established for product. <ul style="list-style-type: none"> <li>• Potassium hydroxide: PEAK LIMITATION 2 mg/m<sup>3</sup></li> <li>• Ethylene glycol monobutyl ether: 20ppm, (96.9 mg/m<sup>3</sup>)</li> <li>• Triethanolamine 5mg/m<sup>3</sup></li> </ul> |
|------------------------|--|

# SAFETY DATA SHEET

Product: 5082T/5083T Parts Washer Concentrate

|   |   |
|---|---|
|   | <p><b>Short Term Exposure Limit (STEL):</b><br/>None established for product.</p> <ul style="list-style-type: none"> <li>Ethylene glycol monobutyl ether: 50 ppm, (242 mg/m<sup>3</sup>)</li> </ul>   |
| <b>Ventilation</b>  | This substance is hazardous and should be used with a local exhaust ventilation system, drawing vapours away from workers' breathing zone. If the engineering controls are not sufficient to maintain concentrations of vapours/mists below the exposure standards, suitable respiratory protection must be worn.   |
| <b>Personal Protective Equipment</b>  | Use good occupational work practice. The use of protective clothing and equipment depends upon the degree and nature of exposure. The following protective equipment should be available;   |
| <b>Eye Protection</b><br>    | Safety glasses should be used for handling concentrate in quantity, cleaning up spills, decanting, etc. Eye protection devices should conform to relevant regulations. Eye protection should conform with Australian/New Zealand Standard AS/NZS 1337 - Eye Protectors for Industrial Applications.   |
| <b>Hand Protection</b><br>   | Wear gloves of impervious material such as butyl rubber, natural latex, neoprene, PVC and nitrile – to handle in quantity, clean up spills, decanting, etc. Final choice of appropriate gloves will vary according to individual circumstances. i.e. methods of handling or according to risk assessments undertaken. Occupational protective gloves should conform to relevant regulations. Reference should be made to AS/NZS 2161.1: Occupational protective gloves - Selection, use and maintenance.                |
| <b>Body Protection</b><br> | Suitable protective workwear, e.g. rubber or plastic apron, sleeves, boots and cotton overalls buttoned at neck and wrist are recommended. Chemical resistant apron is recommended where large quantities are handled.  |
| <b>Respirator</b>   | If engineering controls are not effective in controlling airborne exposure then an approved respirator with a replaceable vapor/mist filter should be used. Refer to relevant regulations for further information concerning respiratory protective requirements. Reference should be made to Australian Standards AS/NZS 1715, Selection, Use and Maintenance of Respiratory Protective Devices; and AS/NZS 1716, Respiratory Protective Devices, in order to make any necessary changes for individual circumstances. |

## SECTION 9 – PHYSICAL AND CHEMICAL PROPERTIES

|   |                             |                          |                     |
|---|-----------------------------|--------------------------|---------------------|
| <b>Physical State</b>                   | Non-viscous liquid          | <b>Colour</b>            | Green               |
| <b>Odour</b>                            | characteristic odour        | <b>Specific Gravity</b>  | 1.02 – 1.04 @ 25 °C |
| <b>Boiling Point</b>                    | Approximately 100 °C        | <b>Freezing Point</b>    | Approximately 0 °C  |
| <b>Vapour Pressure</b>                  | Not available               | <b>Vapour Density</b>    | Not available       |
| <b>Flash Point</b>                      | Not flammable               | <b>Flammable Limits</b>  | none                |
| <b>Water Solubility</b>                 | Miscible in all proportions | <b>pH</b>                | 11.0 – 11.5 neat    |
| <b>Volatile Organic Compounds (VOC)</b> | <10 % v/v                   | <b>Per Cent Volatile</b> | Ca 80 % v/v         |
| <b>Viscosity</b>                        | Not available               | <b>Odour Threshold</b>   | Not available       |

## SECTION 10 – STABILITY AND REACTIVITY

|                   |   |
|-------------------|---|
| <b>Reactivity</b> | Stable at normal temperatures and pressure. |
|-------------------|---|

# SAFETY DATA SHEET

Product: 5082T/5083T Parts Washer Concentrate

|                                |   |
|--------------------------------|---|
| <b>Conditions to Avoid</b>     | Extremes of temperature and direct sunlight. Reacts vigorously with acids.  |
| <b>Incompatibilities</b>       | ACIDS: violent reaction can occur, yielding heat and pressure, which can burst an enclosed container. Reacts slowly with ambient air (particularly carbon dioxide), which may cause certain insoluble salts to form in solutions. |
| <b>Hazardous Decomposition</b> | Thermal decomposition may result in the release of toxic and/or irritating fumes.   |

## SECTION 11 – TOXICOLOGICAL INFORMATION

### POTENTIAL HEALTH EFFECTS

No adverse health effects expected if the product is handled in accordance with this Safety Data Sheet and the product label. Symptoms or effects that may arise if the product is mishandled and overexposure occurs are:

|                                  |   |
|----------------------------------|---|
| <b>Inhalation</b>                | Inhalation of mists or aerosols can produce mucous membrane and respiratory irritation. Exposure to high concentrations of the product in liquid form or as a mist may lead to possible harmful effects - aerosols of this product containing ingredient ethylene glycol monobutyl ether may cause central nervous system effects if inhaled. |
| <b>Skin contact</b>              | Skin contact with concentrate may cause irritation. Irritation will continue until removed. Severity depends on the concentration and duration of exposure.   |
| <b>Eye contact</b>               | Concentrated product causes eye irritation. Eye contact with concentrate will cause stinging, blurring, tearing.  |
| <b>Ingestion</b>                 | Swallowing can result in nausea, vomiting, chemical burns of the mouth, throat & abdomen. This product containing ethylene glycol mono butyl ether may cause headache, dizziness, light-headedness, confusion, and passing out, and may damage the liver and kidneys on ingestion.  |
| <b>Chronic exposure</b>          | Prolonged and repeated skin contact with diluted solutions may induce eczematoid dermatitis. Development of a defatting dermatitis on prolonged contact with potassium hydroxide has been reported.   |
| <b>Toxicology Information</b>    | Not classified as 'Toxic'. Oral LD50 (ATE calculated) : >3,500 mg/kg body weight.   |
| <b>Carcinogen Status</b>         |   |
| <b>NOHSC</b>                     | No significant ingredient is classified as carcinogenic by NOHSC.   |
| <b>NTP</b>                       | No significant ingredient is classified as carcinogenic by NTP.   |
| <b>IARC</b>                      | No significant ingredient is classified as carcinogenic by IARC.  |
| <b>Respiratory sensitisation</b> | Not expected to be a respiratory sensitizer.  |
| <b>Skin Sensitisation</b>        | Not expected to be a skin sensitizer.   |
| <b>Germ cell mutagenicity</b>    | Not considered to be a mutagenic hazard.  |
| <b>Reproductive Toxicity</b>     | Not considered to be toxic to reproduction.   |
| <b>STOT-single exposure</b>      | Not expected to cause toxicity to a specific target organ.  |
| <b>STOT-repeated exposure</b>    | Not expected to cause toxicity to a specific target organ.  |
| <b>Aspiration Hazard</b>         | Not expected to be an aspiration hazard.  |

## SECTION 12 – ECOLOGICAL INFORMATION

|   |   |
|---|---|
| <b>Acute Aquatic Toxicity Product (as sold)</b> | Acute Aquatic Toxicity Category 3<br>H402 - Harmful to aquatic life. (LC50 >10 mg/L but < 100mg/L)<br>Acute Aquatic Toxicity (ATE Calculated) LC50: 30 - 55 mg/L. |
| <b>Acute Aquatic Toxicity</b>                   | Acute Aquatic Toxicity - NOT HAZARDOUS  |

TQB Brands Pty Ltd

# SAFETY DATA SHEET

Product: 5082T/5083T Parts Washer Concentrate

|  |  |
|--|--|
| <b>Product (at use dilution 1:100 rinse)</b> | Not harmful to aquatic life. LC50 > 100mg/L.<br>Acute Aquatic Toxicity (ATE Calculated) LC50: 3,000 – 5,500 mg/L.            |
| <b>Persistence and degradability</b>         | Readily biodegradable, based on ingredients.   |
| <b>Bio accumulative Potential</b>            | No bioaccumulation is expected.  |
| <b>Mobility in soil</b>                      | Due to its physico-chemical characteristics, highly mobile in the environment and will partition to the aquatic compartment. |
| <b>Other adverse effects</b>                 | Not available  |
| <b>Environmental Protection</b>              | Do not discharge this material into waterways.   |

## SECTION 13 – DISPOSAL CONSIDERATIONS

|  |   |
|--|---|
|  | Dispose of waste according to applicable local and national regulations. Do not allow into drains or watercourses or dispose of where ground or surface waters may be affected. Wastes including emptied containers are controlled wastes and should be disposed of in accordance with all applicable local and national regulations. |
|--|---|

## SECTION 14 – TRANSPORT INFORMATION

|                                 |                 |
|---------------------------------|-----------------|
| <b>Labels Required</b>          |                 |
| <b>ADG</b>                      |                 |
| <b>IMDG Marine Pollutant</b>    | No              |
| <b>HAZCHEM</b>                  |                 |
| <b>Land Transport (ADG)</b>     |                 |
| <b>UN Number</b>                | None allocated. |
| <b>ADG Proper Shipping Name</b> | None allocated. |
| <b>ADG Code Hazard Class</b>    | None allocated. |
| <b>HAZCHEM Code</b>             | None allocated. |
| <b>Special Provisions</b>       | None allocated. |
| <b>Packing Group</b>            | None allocated. |
| <b>Packaging Method</b>         | None allocated. |
| <b>IERG Number</b>              | None allocated. |
| <b>Segregation</b>              | None allocated. |

## SECTION 15 – REGULATORY INFORMATION

|                           |  |
|---------------------------|--|
| <b>GHS Classification</b> | Classified as Hazardous according to the Globally Harmonised System of Classification and labelling of Chemicals (GHS) including Work, Health and Safety regulations, Australia. |
| <b>SUSMP</b>              | S5 (ALKALINE SALTS)  |
| <b>ADG Code</b>           | None allocated.  |
| <b>AICS</b>               | All ingredients present on AICS.   |
