FEATURES

Machined and polished cylinders with die-cut threads provide non-abrasive leak-free, durable performance. Fabricated from hard-cast steel with heat-treated critical stress areas. Unique cross-type forged release valve ensures positive load control. Overload protection Hydraulic system is protected from internal damage by a by-pass mechanism. High quality glide-action pressure pump. Supplied with 500mm pump handle.

FEATURES OF TQ Pro BOTTLE JACKS

Using CNC technology, **TQ Pro** products are constructed using superior-grade steel and built to premium **TQ Pro** standards for professional quality and durability.
Premium quality large diameter hydraulic steel cylinders are machined with precision tolerances, then treated and polished to minimise wear and extend service life.
Incorporating the latest technology in aggressive wiping lips and OD exclusion, the high capability premium quality seal systems efficiently protect internal hydraulics keeping it free from dirt, mud, water, and other contaminants.
A lead-free paint finish is applied after a thorough chemical wash to ensure a long-lasting premium finish with a final coat that is oil, grease and dirt-resistant for easy cleanup.

TRANSFORM THE WORKSHOP

MORE THAN JUST A PRESS!

Workshop Mate Workstation featuring a 30,000KG Shop Press & Spring Compressor

WSM4  **WORKSHOP MATE**
THE MECHANICS WORKSTATION

Safe working capacity: 30,000kg

Working range: 224mm-819mm

Piston ram stroke main ram:

140mm (Standard load cap fitted)

Bed height settings: 85mm increments-8 settings

Bed width: 466mm Bed gap: 200mm

Spring compressor: Piston ram stroke: 295mm

Operating air pressure: 90-125psi

Overall dimensions: 1820H x 1170W x 820Dmm

Weight: 400kg

**MADE FOR THE
TRADE**

FEATURES

AIR/HYDRAULIC OPERATED 30,000KG PRESS
SPRING COMPRESSOR.

FILTER CRUSHING ACCESSORY

DOZENS OF UNIQUE TOOLING OPTIONS

ON-BOARD TOOLING STORAGE STAND

WINCH OPERATION TO LOWER AND RAISE BENCH

BENEFITS

Press almost any bearing or bush with **PRECISION** and **ACCURACY** in minutes, saving valuable workshop time. Smooth **AIR/HYDRAULIC** foot pedal operation for hands-free accuracy & control.

Hands free Spring Compression.

Even the most difficult pressing tasks become **SAFE & EASY**.

Complete with **COMPREHENSIVE HIGH QUALITY** Interlocking Tool, Die and Spacer Kit to ensure **SAFE WORK PRACTICES**.

Complete on machine storage - minimises time spent searching for the required tools & spacers for each job!

Tasks like **SUSPENSION BUSHES** once seen as too hard become a breeze.

A comprehensive variety of spring adaptors, suitable to almost any type or model of spring **SAFE & EASY** to compress in minutes.

Decrease labour time & increase productivity and efficiencies.

INCREASE WORKPLACE SAFETY.

Undertake jobs that are currently too difficult.

Workshop Mate 18 Pce Sleeve Kit

WSMP50  **WORKSHOP MATE**
THE MECHANICS WORKSTATION

18 Piece Sleeve Set includes:

28x20x80mm; 33x25x80mm;

38x30x80mm; 43x35x80mm;

48x40x80mm; 53x45x80mm;

58x50x80mm; 63x55x80mm;

68x60x80mm; 73x65x80mm;

78x70x80mm; 83x75x80mm;

88x80x80mm; 93x85x80mm;

98x90x80mm; 103x95x80mm;

108x100x80mm; 113x105x80mm

Excludes GST

\$389

Inc. GST \$427.90

FEATURES

18 sleeves constructed from heat-treated forged carbon steel.

Sturdy metal carry case.

Designed and engineered to work as an added accessory to all current Workshop Mate Workstations.

Great Workshop Mate Accessory

FEATURES

- Heavy-duty H-frame constructed of high-grade steel and built to exacting standards for quality and durability.
- Foot operated air trigger ram travel control.
- 100mm pressure gauge.
- Extra tall working range for versatility.
- Pair of bed plates included
- Table winch system lowers or raises the bed.
- Integrated overload protection valve keeps from overloading the system.
- High quality large diameter hydraulic steel cylinder unit results in lower oil pressure needed to raise the load, helping to reduce wear and extend service life.
- Piston-ram is treated and polished and fitted with backup ring, preventing load from falling slowly or bypassing oil drift.
- Hydraulics are powered with a high quality oil, which offers better corrosion resistance & high/low temperature flexibility, allowing the unit to operate at temperatures.
- Lead-free paint finish is applied after a thorough chemical wash to ensure a long-lasting finish to help prevent rust & is oil, grease, & dirt-resistant for easy clean up.

***UNLESS STATED OTHERWISE, ALL TQB BRANDS PRODUCTS, EXCLUDING CONSUMABLES, COME WITH A 12 MONTH COMMERCIAL USE WARRANTY AGAINST MANUFACTURING DEFECTS. FEATURES

Tradequip "Made for the Trade" Ultrasonic Parts Cleaners make it easy to clean items like carbies, calipers, nuts & bolts, most small metal parts - even jewelry. Just fill the cleaner with water, mix with the appropriate ultrasonic cleaning additive (sold separately), set the timer and walk away to get on with another job. The ultrasonic cleaner works with or without heat and provides deep cleaning using ultrasound technology and water. The adjustable temperature and timer gives you a variety of cleaning performance options.

Blasting Cabinet 420 Litre Capacity

3036T **TRADEQUIP**
the trusted brand in equipment

Cabinet capacity: 420 Litre
Air regulator & gauge panel
4 Ceramic nozzles: 2x5mm, 2x6mm
Maximum media capacity: 70kg
Maximum air pressure: 125psi
Required air supply: 15-25CFM
14 gauge steel legs & 16 gauge panels
Sand blasting efficiency: 100cm²/min
Optimum operating pressure 60-110psi
External size: 1680H x 1180W x 940Dmm

Includes blasting gun and vinyl blaster gloves

Oversized hinged top door opening
Includes 240V dust extraction system

420 LITRE Capacity

Excludes GST
\$2999
Inc. GST \$3298.90

FEATURES

Perfect for surface preparation on any type where other forms of preparation are difficult.
Ideal for removing paint, rust, scale and oxidation.
Large viewing window gives the operator a wide viewing area.
Oversized hinged top door opening & large inside work area allows easy maneuverability.
Hinged door on hopper allows for easy abrasive changes.
Fluorescent light kit and 90CFM dust collector help the operator to maintain a good visual.
Rear-mounted dust collector.
Replaceable protective window. Foot-pedal-controlled siphon blast gun.

MADE FOR THE TRADE

Foot operated pressure control valve

Soda/Sand Blasting Hood

3053 **TRADEQUIP**
the trusted brand in equipment

Durable fabric & synthetic-leather construction
Large 110mm x 55mm acrylic viewing plate
Adjustable internal helmet for added comfort
Reinforced side ventilation panels for increased airflow

FEATURES

Protect eyes and face from "rebounding" abrasive particles by wearing Abrasive Blasting Hood. Ideal for many abrasive-blasting applications.

Excludes GST
\$55
Inc. GST \$60.50

NOT FOR RESPIRATORY PROTECTION

BLASTING MEDIA ABRASIVE

Tradequip "Made for the Trade" Blasting Media Abrasives are designed for use in conjunction with our Tradequip Mobile Blasting Kits and Blasting Cabinets. Abrasive blasting has been used for many years to clean and remove rust, paint and corrosion. There are many types of abrasive media available, the most common being Garnet, Steel Grit and Glass Bead. These media have an aggressive cut and can rapidly remove paint and rust. However, they can also generate significant heat, potentially resulting in warped metal and etched surfaces, and they cannot be used on fiberglass. Also, chrome, plastic, rubber, trim, and other parts must be removed from a work surface or masked-off before blasting. Alternatively, less-aggressive media, such as Walnut Shell, will do a great job at removing paint. Walnut Shell does not generate as much heat as other media, and can be used on sheet metal and fiberglass without damaging the base material. However, Walnut Shell as with any abrasive media, will require more clean-up as it leaves particles in the car body's seams and crevices that can be difficult to completely remove. Soda blasting media has non abrasive properties which makes it a very universal blasting media which can be applied to lighter materials such as aluminium, plastic, fiberglass, wood etc. Soda Blasting does not damage glass, rubber, chrome items if they are left on a vehicle for blasting.

GARNET 25KG MEDIUM 30/60

3020T **TRADEQUIP**
the trusted brand in equipment

Garnet is a gemstone with excellent naturally abrasive properties. This hard abrasive is fast-cutting, low-dust producing and low-consuming, excellent for removing tough coatings, paint, rust and mill scale from steel. Garnet also permits precise feathering control. A good general outdoor surface preparation abrasive.

Excludes GST
\$62
Inc. GST \$68.20

WALNUT SHELLS 20KG 6-100 MICRON

3022T **TRADEQUIP**
the trusted brand in equipment

Walnut Nut shells and other organic materials, don't cause anchor patterns, making them useful for removing dirt, grease, oil, carbon, scale, burrs and paint without changing the underlying substrate. Walnut shells can be an excellent choice for softer surfaces such as wood — they won't cause etching. Walnut shells are one of less abrasive blasting media you can use and are completely biodegradable, making them among the most environmentally-friendly blasting media.

Excludes GST
\$169
Inc. GST \$185.90

GARNET 25KG COARSE 20/40

3023T **TRADEQUIP**
the trusted brand in equipment

Garnet is a gemstone with excellent naturally abrasive properties. This hard abrasive is fast-cutting, low-dust producing and low-consuming, excellent for removing tough coatings, paint, rust and mill scale from steel. Garnet also permits precise feathering control. A good general outdoor surface preparation abrasive.

GLASS BEAD 25KG 106-300MICRON

3025T **TRADEQUIP**
the trusted brand in equipment

Glass beads are used for general cleaning, peening and cosmetic finishing of sensitive metal surfaces; removing automotive paint; brightening grout and removing fungus and calcium deposits from tile; polishing cast iron, stainless steel, aluminium, propellers and turbine blades. Glass Beads are environmentally friendly and can be used in many blast applications to provide a finish with no profile. Use while working with metal, plastic or rubber materials to clean, debur and finish.

Excludes GST
\$99
Inc. GST \$108.90

SODA BI CARB 22KG **TRADEQUIP** 3028T (Product of America)

Clean tools, strip paint and more with Soda Bi-Carbonate. The medium-sized crystals provide blasting power to smooth and strip paint without damaging other surfaces. Works with aluminum, steel, stainless steel, fiberglass and more...

Excludes GST

Self-Evacuating Oil Drainer 65 Litre

1046T **TRADEQUIP**
the trusted brand in equipment

Capacity: 65 Litres
Working height: 1080-1600mm
Discharge pressure: 12psi
Telescopic adjustment
Air inlet: 1/4" BSP

**TELESCOPIC
COLLECT
STORE/CARRY
DISCHARGE**

**MADE FOR THE
TRADE**

FEATURES

Collect, transfer, evacuate used engine oils, transmission fluids, power steering fluids etc.
Top quality heavy-gauge steel collection tank with adjustable telescopic drain pan.
Offset drain bowl and Tank oil level indicator.
Air pressure relief valve prevents.
Sturdy rubber front wheels and ball bearing-mounted rear castors provide stability and easy maneuverability.
Lead-free paint is oil, grease and dirt-resistant.
Oil, heat, ozone and abrasion resistant hose.

Excludes GST
\$429

Steel Workbench

1014T **TRADEQUIP**
the trusted brand in equipment

Safe working capacity: 90kg
Work surface: 1510x700mm
Raised edge height: 50mm
1520L x 710W x 830Hmm
Weight: 48kg

FEATURES

Sturdy steel construction.
High gloss enamel paint finish.
Raised protective edge to work surface.
Adjustable feet for levelling on uneven floors.
Quick and easy to assemble.
Easily wipe dirt and grime from surface with a soft cloth.

3 Drawer Steel Workbench

1012T **TRADEQUIP**
the trusted brand in equipment

Safe working capacity: 300kg
Heavy duty steel construction
High gloss enamel paint finish
Includes bottom shelf & 3 locking drawers
Each drawer holds up to 50kg
2000L x 860H x 640Wmm

FEATURES

Manufactured from high quality, heavy-duty steel and features a large surface for more work space and an extended lip around the surface of the table.
The tough high gloss enamel paint finish is designed to provide years of protection against normal wear and tear.

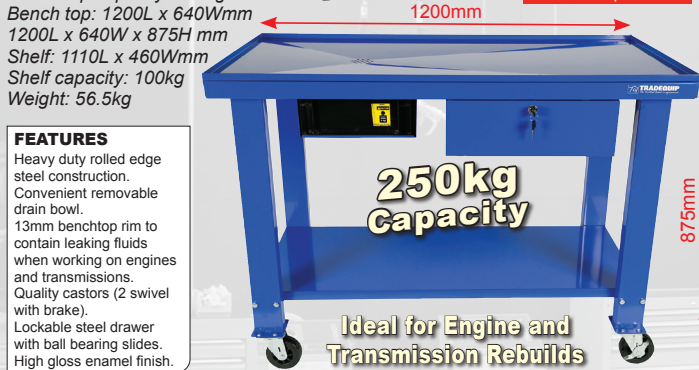

Mobile Workbench

6047 **TRADEQUIP**
the trusted brand in equipment

Safe working capacity: 250kg
Bench top capacity: 150kg
Bench top: 1200L x 640Wmm
1200L x 640W x 875H mm
Shelf: 1110L x 460Wmm
Shelf capacity: 100kg
Weight: 56.5kg

FEATURES

Heavy duty rolled edge steel construction.
Convenient removable drain bowl.
13mm benchtop rim to contain leaking fluids when working on engines and transmissions.
Quality castors (2 swivel with brake).
Lockable steel drawer with ball bearing slides.
High gloss enamel finish.

Mobile Bench

1073T **TRADEQUIP**
the trusted brand in equipment

Safe working capacity: 300kg
Work surface: 1100 x 700mm
1100L x 700W x 830H mm
Weight: 60kg

FEATURES

Sturdy steel construction.
High gloss enamel finish. Heavy-duty handle.
Quality castors - two fixed & two locking swivel.

22 Bin Parts Storage Rack

6053 **TRADEQUIP**
the trusted brand in equipment

Working load capacity: 100kg
15 parts bins: 345x105x75mm (3kg load capacity)
4 parts bins: 345x140x150mm (5kg load capacity)
3 parts bins: 345 x 205 x 150mm (8kg load capacity)
Swivel castor diameter: 100mm
880L x 410W x 950H mm

Excludes GST
\$429
Inc. GST \$471.90

FEATURES

Sturdy five-tier steel powder coated rack.
Zinc plated wire shelving with bin locating guides.
Quick & easy clip together adjustable shelves.
Stackable bins made of moulded polypropylene.
Ideal for garage, workshop, office, shed.
Powder coat frame resists corrosion.
Quality swivel castors (2x lockable).
Convenient access to removable bins.

36 Bin Parts Storage Rack

6054 **TRADEQUIP**

12 parts bins: 345x140x150mm (5kg load capacity)
9 parts bins: 345 x 205 x 150mm (9kg load capacity)
Swivel castor diameter: 100mm
880L x 410W x 1705Hmm

Excludes GST
\$689
Inc. GST \$757.90

FEATURES

Sturdy nine-tier steel powder coated rack.
Zinc plated wire shelving with bin locating guides.
Quick & easy clip together adjustable shelves.
Stackable bins made of moulded polypropylene.
Ideal for garage, workshop, office, shed.
Powder coat frame resists corrosion.
Quality swivel castors (2x lockable).
Convenient access to removable bins.

Mobile Workshop Table

6024T **TRADEQUIP**
The trusted brand in equipment

Safe working capacity: 45kg
Working height: 930-1270mm
Castor wheel diameter: 75mm
Top dimensions: 809L x 475W x 42Hmm
Main tray dimensions: 580L x 308W x 38Hmm
Overall dimensions: 870L x 755W x 942Hmm
Weight: 19.5kg

FEATURES

The Heavy Duty steel construction.
Easily handles loads up to 45kg.
Solid composite rubber castors.
Simple height adjustment gives you plenty of options for lowered cars or SUV's.

Excludes GST
\$365

Inc. GST \$401.50

155kg Capacity

Workshop Trolley 4 Drawers with Lockable Top

6052 **TRADEQUIP**
The trusted brand in equipment

Safe working capacity: 260kg
4 lockable drawers on 35mm ball bearing slides
Two 75mm deep shelves for plenty of storage (one lockable)
Top 2 drawers (each): 310W x 370D x 50Hmm
Middle drawer: 680W x 370D x 70Hmm
Large drawer: 660W x 370D x 100Hmm
Two swivel and two fixed 100mm smooth rolling composite rubber castors.
850L x 445D x 972Hmm

Excludes GST
\$469

Inc. GST \$515.90

260kg Capacity

FEATURES

Heavy gauge steel construction with lockable sliding top on smooth ball bearing runners.
Quality ball bearing slide drawers, that lock when top is closed.
Side handle for comfort and control when manoeuvring.
Tough high gloss enamel finish.
Non slip rubber tool tray liners.
Heavy-duty ergonomic grip handle.
Two heavy-duty locking castors for control and stability.

ABOUT EAGLE PRO HYDRAULICS

With nearly 3 decades experience of manufacturing hydraulic tools for industrial applications, Eagle Pro Hydraulics has become the trusted partners for applications spanning from offshore plant maintenance to mining, infrastructure, commercial and industrial. Eagle Pro Hydraulics are manufactured to ISO 9001:2018 through international quality assurance programs which involve consistent observation of administration, management, manufacturing and production control. Eagle Pro hydraulic cylinders meet or exceed ANSI B30.1. This results in reliable and dependable high-quality products you can count on every time.

ES SERIES

Single Acting General Purpose

Eagle Pro ES series redefines durability for the harshest of industrial environments with its high strength alloy steel construction. Hardened and chromed piston ensures superior product life by reducing wear and corrosion. Eagle Pro ES series is not only durable, it gets the job done! Heavy-duty, straight pull return springs provide fast retraction. For greater flexibility and easy mounting, the ES series comes with collar, multiple piston threads, and base mounting holes. Hardened and E-coated snap-in type saddle prevents piston jamming and mushrooming, practically eliminating downtime. The female coupler comes with a dust cover – preventing dirt and debris from entering the hydraulic system. The Eagle Pro ES series also complies with ASME B30.1 standard.

EDH SERIES

Double Acting Hydraulic

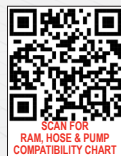

The Eagle Pro EDH series incorporates a hollow piston design that allows both pushing and pulling forces. The construction of high strength alloy steel maximizes durability. The EDH series' double acting operation ensures fast and controlled piston reaction time. Accidental over-pressurization is prevented with a built-in safety valve. The collar, piston threads, and base mounting holes enable easy fixturing.

ED SERIES

Double Acting General Purpose

The Eagle Pro ED series produces fast and controlled piston contraction thanks to the double acting operation. A built-in safety valve prevents accidental-over pressurization. Most models include collar, piston threads, and base mounting holes to make fixturing a simple task. Piston jamming and mushrooming is prevented by the cylinder's hardened, and E-coated snap-in saddle. The ED series enhances durability with a hardened and chromed piston that reduces wear and corrosion. ED series cylinders are easy to move around the job site with the addition of carrying handles (and eyebolts on larger models) that ease positioning and carrying. A durable, anti-corrosive finish is added using an environmentally friendly coating process.

EDX SERIES

Double Acting High Tonnage

Eagle Pro EDX series maximizes durability with the use of a high strength alloy steel. The built-in safety valve prevents accidental over-pressurization. The EDX is easy to carry and position with the included eyebolts. Optional tilt saddles are also available. The hardened and chromed piston minimizes wear and corrosion damage. The incorporation of base mounting holes enables easy fixturing. An environmentally friendly coating process provides a highly durable finish.

EL SERIES

Single Acting With Locking Collars

The Eagle Pro EL series includes an alloy steel lock nut for mechanical load holding. The EL series is constructed of a high strength alloy steel to maximize durability. The hardened chrome piston reduces damage caused from wear and corrosion. The over flow port functions as a stroke limiter. The EL series includes hardened grooved replaceable saddles. Composite bearings prevent metal-to-metal contact. Quick reaction times are obtained through with heavy-duty straight pull return springs. An environmentally friendly coating process produces a finish that further increases durability.

ESL SERIES

Low Profile And Pancake Style

Featuring a low-profile, or flat design, the Eagle Pro ESL series cylinder is an optimal choice for confined spaces. The hardened and chromed piston is constructed of high strength alloy steel that increases durability by reducing wear and corrosion. The grooved piston end does not require a saddle and the inclusion of mounting holes permits easy fixturing. Retraction time is quick thanks to the heavy duty, straight pull return springs. An environmentally friendly coating process is used to provide the durable anti-corrosion finish.

ESH SERIES

Single Acting Hollow Piston

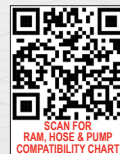

The Eagle Pro ESH Series allows for both pushing and pulling by incorporating a hollow piston design. The heavy-duty return spring provides notoriously quick reaction times. Easy fixturing with the inclusion of collar threads.

EPA SERIES

Dual Speed Hand Pumps

The Eagle Pro EPA series hydraulic hand pumps are some of the most durable, powerful and reliable hand pumps in the industry today. The EPA series feature valve blocks that are machined from a single piece of high strength aircraft grade aluminum and high capacity reservoirs made from alloy steel* that maximizes durability. The EPA series hand pumps are compact and easy to carry around the job site. To get the job done faster, these powerful dual speed pumps offer some of the best flow rates in the industry. All of the EPA series hydraulic hand pumps feature an internal safety valve to prevent system damage.

TRADEQUIP EVAPORATIVE COOLERS FEATURES & BENEFITS

Moulded polyethylene housing will not crack and is rust & leak proof.
Environmentally-friendly alternative to traditional reverse cycle A/C.
Cools without chemicals or refrigerants.
Long-term dependability. Near maintenance free operation.
Cools where traditional cooling methods are impractical or cost-prohibitive.
Remote control speed adjustment. Direct drive. LCD 24 hour timer panel.
Easy to read water level sight tube gauge.
Dual pour in refill water inlet and/or 3/4" hose fitting for automatic tap refill.
Adjustable water flow & drain valve. Nylon castors for easy portability.

TRADEQUIP INDUSTRIAL AIR CONDITIONERS FEATURES & BENEFITS

Compact yet powerful. Wide operating range of 18° - 45°C.
Single duct system for easy installation. Capillary tube construction for simplicity.
5 Litre self-contained condensation tank for easy removal and emptying.
Heavy duty compressor with automatic restart and short cycle protection.
Motors and compressors have overload protection.
Durable and long lasting steel construction.
Heavy duty locking castors and handles for easy manoeuvrability.
Easy to use plug in and place the hot air duct out of window/door or into false ceiling.

Workshop Heater 30kW SEASONAL LINE

1096T **TRADEQUIP**
the trusted brand in equipment

Power output: 30kW - 102,360 Btu/h
Motor: 240V/50Hz 10A 230W
Air delivery: 720 cubic metres per hour
Noise level: 76dB(A)
Fuel consumption: 2.4kg/hr
Tank capacity: 38 Litres
Dimensions: 880 x 456 x 590mm
Weight: 21kg

**MADE FOR THE
TRADE**

**RUNS UP TO 9 HOURS
ON A SINGLE FILL**

FEATURES

Burns diesel or kerosene. Built in oil burner.
Electronic flame control system.
Safety overheat thermostat and pressure switch.
Stainless steel heat exchanger.
Double skinned combustion chamber for thermo-acoustic insulation and safe low surface temperature.
Preheated oil filter. Twist lock fuel cap with cable.
Pre-purge and post-ventilation cycles.

Excludes GST
\$749
Inc. GST \$823.90

Workshop Heater 50kW

1097T **TRADEQUIP**
the trusted brand in equipment

Power output: 50kW - 170,600 Btu/h
Motor: 240V/50Hz 10A 340W
Air delivery: 1100 cubic metres per hour
Noise level: 77dB(A)
Fuel consumption: 4kg per hour
Tank capacity: 56 Litres
Dimensions: 1090 x 490 x 585mm
Weight: 27kg
