FABRICATED OFFSET

ENGINEERS VICE

150MM 6" JAWS STEEL FABRICATED

This TradeQuip "Made for the Trade" Engineers Vice is designed for all heavy duty work and manufactured from heavy steel plate. Precision machined surfaces ensures a long life smooth operation with case hardened replaceable steel jaws, replaceable nut, corrosion resistant screw and handle. The offset design offers the convenience to hold a long vertical workpiece in the full width of the jaws without obstruction from the main body of the vice. This is an all steel fabricated offset bench vice, manufactured from heavy steel plate.

FEATURES

- Offset jaws allow the workpiece to be held in a vertical position
- Fixed offset base - right hand
- Solid fabricated steel construction
- Precision machined screw and handle
- 4 mounting holes (20mm Dia)

MADE FOR THE TRADE
