WALNUT BLASTING MACHINE 10 LITRE

This TQ Pro "Latest Applied Technologies" 10 Litre Walnut Blasting Machine is perfect for intake cleaning and performed on a regular basis is crucial to your vehicle's engine performance and efficiency. Walnut blasting is a common way to clear carbon build up from your car's intake valves. The Walnut shell is hard enough to clear out the build up and soft enough not to damage your intake. Like sand blasting, walnut blasting breaks up and blows away the nasty build up so your car runs like it's supposed to.

Features

- Built to exacting standards
- Precision blasting mechanism
- 3 metre hose
- Premium nylon wheels
