eQuipt Engine Stand 450kg

Product Code: **E06-0010**

A 450kg-capacity 4-leg engine stand with a 360° rotating, slotted mounting head suited to cast iron and alloy engines up to 4 cylinders. Its wide base and large wheels make it stable and easy to manoeuvre during engine repairs.

AU$185.00 EX GST

RECOMMENDED TRADE PRICE

Key Features

- Rugged tubular steel frame
- 360 degree rotating head that locks in 8 positions
- Slotted mounting head for full adjustment
- Extra wide base for stability and safety

Description

450kg Engine Stand has a 4-leg design featuring a rugged frame with a 4-hole mounting head that rotates 360°, making the unit ideal for 4 cylinder engines. When you've got an engine repair job that can't be completed while the engine block is in the vehicle, this engine stand provides a sturdy support structure to secure the removed engine in mid-air, so you can access any part of it. Use an engine crane to remove the engine from the vehicle, then mount it to the faceplate on this engine stand.
